How to Add Zigbee Devices-Manually

1. You will have to connect the gateway first before connecting Zigbee devices. Therefore, please click **Add Manually > Others** and choose a gateway
2. Power on the gateway and connect it to the router through cable.
3. Please make sure the phone and the gateway are connected to the same LAN. (The Wi-Fi needs to be 2.4G.)

4. After successfully adding the gateway as instructed, you may connect the Zigbee devices.

5. After adding the gateway, you can enter the gateway page and click **Add De-vices**. You will see other devices that have already connected to this gateway You can also add them to your account.

6. In the latest APP version, it has the **Search devices** function so that you can add more devices to your gateway at once.
